

# DOUBLEFLEX<sup>®</sup>

| New generation of suction hoses

**NO.1**  
**INNOVATION**

MADE IN FRANCE

**A NEW WAY  
TO WORK IN  
UNDERPRESSURE !**

**GAP**   
PLASTOMÈRE

# KEY

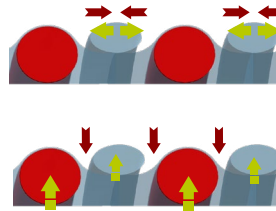

## ADVANTAGES

compared to a standard hose

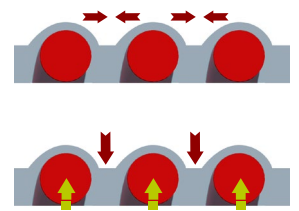

### VACUUM

External spiral is working against shrinking. More spiral volume per meter = Bigger resistance to collapsing.

**DOUBLEFLEX®**

**STANDARD**

### FLEXIBILITY

Larger pitch makes it easier to bend.

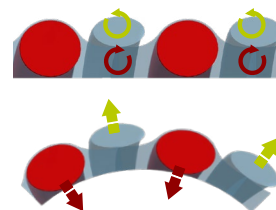

**DOUBLEFLEX®**

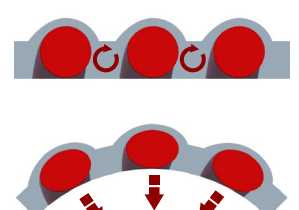

**STANDARD**

### BENDING

External spiral is preventing convulsion & kinking, allowing for a smaller bending radius.

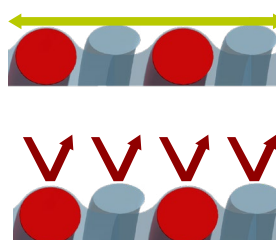

**DOUBLEFLEX®**

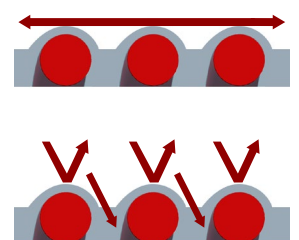

**STANDARD**

### PROTECTION

External rigid spiral provides an easy slide over rough surfaces and protects wall and internal core spiral. Wall protection against perforation.

**DOUBLEFLEX®**

**STANDARD**

# APPLICATIONS

## FOOD & BEVERAGE PROCESSING

### DOUBLEFLEX<sup>®</sup> FOOD

Food Grade according to EC 1935/2004  
& EU 10/2011 - simulants A,B,C,D1

Transparent wall with transparent  
external helix and blue internal helix

### DOUBLEFLEX<sup>®</sup> VINUM

Food Grade according to EC 1935/2004  
& EU 10/2011 - simulants A,B,C,D1

Transparent wall with transparent external  
helix and maroon internal helix

## AGRICULTURE

### DOUBLEFLEX<sup>®</sup> PUMP V

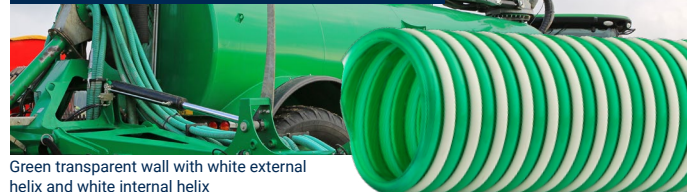

Excellent vacuum resistance  
medium duty

Olive green wall with white external helix  
and white internal helix

### DOUBLEFLEX<sup>®</sup> AGRI

Extreme flexibility even in low temperatures.  
Made with UV resistant materials

Green transparent wall with white external  
helix and white internal helix

## TANK TRUCKS

### DOUBLEFLEX<sup>®</sup> PUMP

Excellent vacuum resistance  
heavy duty

Blue wall with light grey external helix  
and white internal helix

### DOUBLEFLEX<sup>®</sup> POLAR

Specially designed for use under  
extreme low temperatures

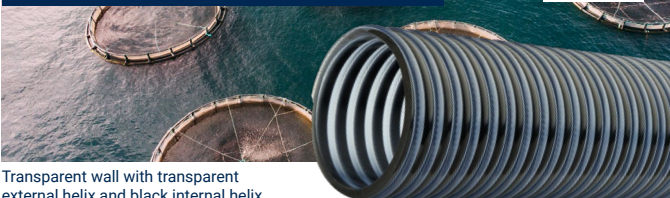

Silver grey wall with blue external helix  
and white internal helix

## SPECIALTIES

### DOUBLEFLEX<sup>®</sup> PESCA

Excellent vacuum resistance and wall  
protection for fish farming applications

Transparent wall with transparent  
external helix and black internal helix

### DOUBLEFLEX<sup>®</sup> EVAC

Special formulation for increased  
resistance to hydrocarbons

Yellow wall with black external helix  
and white internal helix

## DO YOU NEED A **DOUBLEFLEX<sup>®</sup>** FOR YOUR APPLICATION?

Feel free to contact us!
